Senior product leader with technical skill and 10 years of experience building technology for everything from startups to presidential campaigns.

SKILLS

- Product Management – product strategy, user experience, wireframing, road mapping, A/B & multivariate testing, software lifecycle, pre/post launch execution, Agile/Scrum, JIRA
- Leadership – building and leading resilient teams, strategic direction, problem solving, focus & goal orientation, hiring and mentoring talent, leading by influence, B2B and B2C experience
- Technology – data analysis (SQL, R, Tableau), Python, JS (React), HTML/CSS, C#/.NET, iOS/Android, git

EXPERIENCE

Microsoft • Senior Software Engineer* 04/2020 – Present

- Transforming emerging technologies into products for AI and machine learning at Microsoft, in what is functionally a **Senior Technical Product Management** role for special projects.

Warren for President • Product Manager, Organizing Technology 06/2019 – 04/2020

- Awarded Microsoft's prestigious civic leave opportunity and joined Elizabeth Warren's presidential campaign as the first campaign product manager.
- Launched 6 new products in < 9 months to transform the digital experience for campaign volunteers.
- Designed the product management hiring framework and recruited excellent PMs and engineers to build the best tech team in politics.

Microsoft • Product Manager, Senior Software Engineer (Team Lead) 06/2016 – 06/2019

- As a product manager during Microsoft's acquisition of Xamarin, oversaw transition of key parts of the product to Microsoft's Agile development cycle and data-driven planning process.
- Joined the engineering team in 2018 to hone my technical skills. Grew from individual contributor to team lead with direct reports and was one of 5 women in an engineering organization of 100+.
- As team lead on a consumer-facing product with 10k+ weekly active sessions, slashed average download time in half and grew customer install success rate by 25%.

Xamarin • Product Manager 08/2011 – 06/2016

- As the first product manager at a mobile-focused startup, committed fully to the team and mission and helped grow the Xamarin Platform from pre-Series A through a successful acquisition by Microsoft for >\$400 million.

EDUCATION AND CERTIFICATIONS

Vassar College • BA 2011

Harvard Division of Continuing Education • Certificate in Data Science (in progress) 2019 - Present
